The LSC and HCFC, which is revised periodically, is a publication of NFPA, which was founded in 1896 to promote the science and improve the methods of fire protection. The basic life safety from fire requirement for facilities participating in the Medicare and Medicaid programs is compliance with the 2012 edition of the NFPA LSC and HCFC.

Life Safety Code & Health Care Facilities Code ...

The building code assumes one child for every 20 square feet in classrooms (kindergarten and older) and 35 square feet for younger children. That means that the Life Safety Reviewers will be assuming more children, in your facility, than you probably actually plan for. E occupancies that would have more than 50 children (as calculated by the building code) are required to have a fire alarm system.
