It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator – a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Dan Brown Illuminati

The Illuminati was an ancient secret group of scientists driven underground by the Catholic Church. The group was dedicated to pure science and considers the Church to be "spewing superstition." Its members include Copernicus, Galileo, and Gian Lorenzo Bernini. The group accept inductees after going through the Path of Illumination; aspirants were required to follow a series of subtle clues ...
