Base your answer(s) to the following question(s) on the 2001 edition of the Earth Science Reference Tables, the geologic cross section below, and your knowledge of Earth science. The cross section shows the rock structure of a region of Earth's crust.

relative dating practice 2017

It started with using rock layers, or strata, to put together a timeline of Earth's history. Scientist Nicolaus Steno's principle of superposition showed that younger strata always form on top of older ones. This simple idea helps you determine which layers are older based on their positions, a method known as relative dating.
