How to prepare for Inductive reasoning tests

Help us improve our tests. Our psychologists have written a large number of test items and need to collect data so we can develop them into a large bank of inductive reasoning questions. These tests will eventually be put to use by large organisations such as KPMG to identify promising candidates. For this to happen, we need candidates to try ...

Inductive Reasoning Test

Inductive reasoning is a type of logical thinking that involves forming generalizations based on experiences, observations, and facts. Employers look for employees with inductive reasoning skills. Inductive reasoning uses specific ideas to reach a broad conclusion, while deductive reasoning uses general ideas to reach a specific conclusion.
