Since brake shoes are an important component of a vehicle's drum brake system, if they are worn out, then replacement brake shoes are needed ASAP. At 1A Auto, we carry a full line of high quality aftermarket brake shoes, including both front brake shoes and rear brake shoes for many makes and models.

Brake Shoes | Replacement Brake Shoe Sets | Front & Rear ...
The rear brake may need adjusting at the actuating rod where it connects to the brake lever on the housing. Again, a manual will show you all of this stuff. It will show you how to do the adjustment and how to tell if you have enough pad or shoe material left. I think your brakes just need a good cleaning and adjustment.

Great Affordable Set of Replacement Shoes I picked up this set of brake shoes to replace the ones on my 2010 Nissan Sentra. They were a lot cheaper here than parts at my local auto parts store. Replacement take a little while but if you are patient you can save a lot of money by replacing these yourself.

Brake Parts - moparmall.com
Replace the back shoe first. You will need to re-attach the parking brake cable to the new shoe. You will then replace the hold-down springs and pins. It is a good idea to put new ones on at this point. Next, replace your cleaned and lubricated star-wheel. Then put in the primary shoe and replace its hold-down springs and pins.
