Boats that have unstayed masts are stored without their mast. This type of sailing dinghy rigging has the [mainsail] attached to the mast via a sleeve which slides down the mast with the sail being removed or attached only when the mast is unstepped. Often, unstayed masts are made in two sections that slot together.

Standing rigging supports your boat's mast. If your standing rigging is old and corroded, consider replacing it. We offer a complete selection of standing rigging, including standard 1 by 19 stainless steel and Dyform wire. This selection is complemented by a wide range of rigging terminals to accommodate most applications.
