300+ TOP WELDER Multiple Choice Questions and Answers

Welding shall not be done when the ambient temperature is... Answer: Below 0°F [-20°C] Explanation: The question many have after knowing there is a temperature below which welding shall not be done is why you can't just preheat the base metal. And the answer to that is that AWS must impose certain guidelines and limits to prevent fabricators from entering dangerous situations. When the ambient temperature is that cold even a preheated part can cool too quickly.
